

SINORA
MORE THAN A SIGNAL

The background is a solid red color. It features several large, overlapping, organic shapes in a slightly darker shade of red, resembling ink blots or soft-edged circles. In the bottom-left corner, there are several thin, curved lines that sweep upwards and to the right, creating a sense of motion or a signal path.

WHO WE ARE

Sinora, player in the telecommunications market, is an all-Italian company result of the merge of Eurocom Telecomunicazioni and Saitel Telecomunicazioni, active in the same market for over 40 years. It combines highly specialized skills with solid experience to offer fast, innovative, effective support for data, voice and video connections. Being system integrator is what Sinora handles at its best.

Sinora is technology and innovation, because it addresses new technological horizons, providing reliable and ad hoc technical solutions with a highly professional service in a constantly evolving market. Emergency management is one of Sinora's pluses. A qualified design team, made up of 62 employees, 11 engineers and 20 specialized technicians, operates in a widespread manner throughout the national territory, through the four Sinora operating offices. LOGY

VISION

“More than a signal”: That’s Sinora DNA.

Sinora is technology, because it looks towards a new technological horizon, providing reliable technical solutions that respond to specific needs, with a highly professional service.

Sinora is innovation, because turns its head to the future, to be every day more competitive in a rapidly evolving market.

Sinora is teamwork, because it establishes partnerships and synergies with vendors and manufacturers of proven quality and market leaders.

Sinora is closeness, because it constantly stands by the client, supporting every single need. Sinora is ethics, because it works with commitment, awareness, reliability and respect for clients, partners and suppliers.

ETHI-
CS

A macro photograph of several overlapping, translucent bubbles against a light background. The bubbles are of various sizes and are clustered together, with some smaller bubbles nestled between the larger ones. The lighting creates highlights and shadows on the bubble surfaces, giving them a three-dimensional appearance. The text is overlaid on the bubbles in a red, sans-serif font.
